

Logistics for our future

The DB Cargo network's role in the climate-neutral transport of green hydrogen

Global production of hydrogen (H₂)
using power from renewable energy sources

- Wagons:**
- Compressed gas tank wagons
 - Black steel tank wagons
 - Cryo-containers
 - Multi-element gas containers (MEGC)

- Key:**
- Ammonia tanker
 - Import container terminal
 - Hydrogen refuelling station
 - Refinery
 - Factory
 - Marshalling yards
