Short-term spot trains

Fast & flexible for short-term transport requests

© DB AG / Oliver Lang

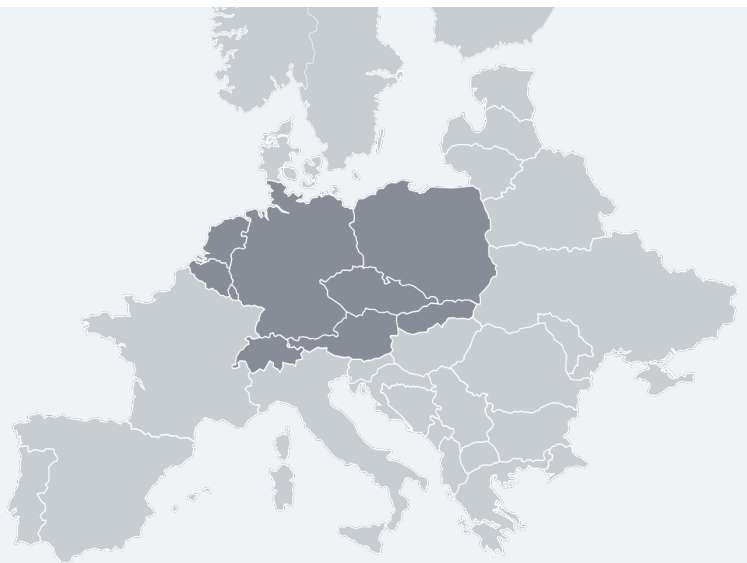

Europe-wide short-notice transports for the mineral oil industry – your benefits at a glance

- Innovative process for short-term spot requests
- Fast and quality-assured resources check: within 24 hours domestically and within 48 hours internationally
- Check of alternative transport days
- End-to-end process from your train order to operational accomplishment
- Consideration of customised requirements
- Train operations are managed and monitored by our central Control Tower in Duisburg
- Strong national and international network by cooperating with reliable service partners
- Delivering consistent transportation services and open to any requests

Focus markets

Supplying multiple refineries and tank terminals with a key focus on **Germany, Poland, the Czech Republic, Hungary, Switzerland, Austria and the Benelux countries**

Short-term assistance for unexpected peaks in demand and ad-hoc deliveries in a volatile market environment
